

## CRFC Emergency Procedures

### General Instruction

Members should not park in areas that restrict access to the Clubhouse or the playing areas. It is the responsibility of the relevant age group manager or nominated coach in charge to ensure that the following procedures are observed.

### Emergency Procedure

In the event of an emergency/serious injury the emergency services should be contacted immediately via 999. A responsible person should go to the front entrance to direct the ambulance to the Club or the area where the casualty is.

The Medical Room is located in the corridor leading to the changing rooms.

FIRST AID Boxes have been distributed to each age group. It is MANDATORY that at any training session or match that there MUST BE A FIRST AID BOX and a PLAYERS CONTACT LIST in the position of age group manager or nominated coach.

Should there be an incident, a responsible person shall be dispatched to the nearest available First Aider who will attend to the casualty. If this is sufficient, the First Aider will remain with the casualty until the risk is reduced or if the casualty is a minor, until they are relieved by a parent/carer.

**All incidents are to be recorded in the accident book which is kept behind the bar in the club house.**

Should a First Aider not be available, the coach/manager will be required to assess the situation and make a decision whether medical help shall be called. It is important to err on the side of caution and, if unsure, to call for assistance from the professionals.
